

Frictionless payments across platforms

Automate your accounts receivable and simplify payment collections with a suite of powerful integrated payment tools.

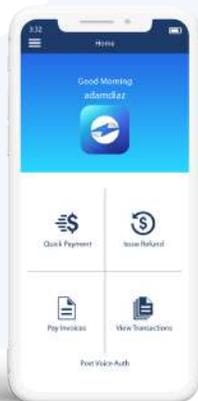

Payment gateway:

Handle payments across platforms with the EBizCharge payment gateway. Access unlimited batch history.

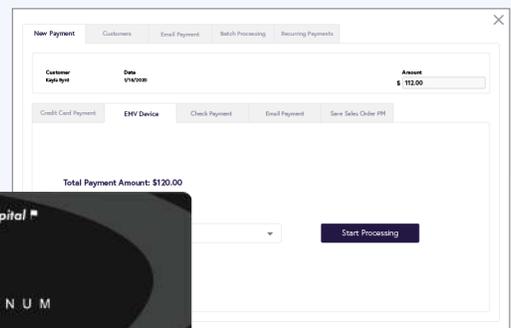

ERP, CRM, & eCommerce integrations:

Run transactions, send email payment reminders to customers, and automate payment collections from your software.

Mobile app:

Accept credit, debit, and ACH payments, search and pay off customers' pending invoices, and sync paid invoices back to your ERP.

Merchant services:

Lower your credit card processing costs and benefit from flat rate pricing and next-day funding options.

" Now our customers can use their saved credit cards to purchase from our ecommerce site, place phone orders, pay open invoices and update saved credit cards."

-Marian Lepore, EMS Safety Services, Inc.

" We are happy with EBizCharge and would be willing to recommend it to others."

-David Rasche, Bickes, Inc.

"EBizCharge enabled us to have credit card numbers tokenized, so we are not actually storing the information."

-Michelle Oleyar, Motawi Tileworks

Built to reduce your processing costs

- Qualifies cards at the lowest rates so you pay less on processing fees
- Flat rate pricing options available
- No contracts or setup costs
- No development or maintenance costs

Protect your customers' data with PCI-compliant security

- Automatically encrypts and tokenizes customer payment information
- Filters out unwanted fraudulent transaction attempts with security modules
- Reduces your liability with off-site data storage
